DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.

The following is a statement of reason for the indication of allowance: As the applicant stated in the remarks of the amendment filed on 2/28/2007.

Applicant's independent claims 1-3 and 5: The present invention is directed to a radio access network system comprising a control server and the data server, the independent claim identifies the patentably distinct feature " a transfer path setter configured to set a data transfer path for an IP packet containing user data in accordance with the configuration, and an inter-server communicator configured to notify an instruction to reserve a resource of the data server for the base station in accordance with the configuration, wherein a connection ID is assigned to the data transfer path and included in the instruction when the data transfer path is set, and a radio access network-side communicator configured to transmit the resource to the base station, and a resource assigner configured to assign the resource to the data transfer path for an IP packet containing user in accordance with the resource reservation instruction notified by the control server, and a resource notifier configured to notify the resource assigned by the resource assigner to the control server ".

Applicant's independent claims 1-3 and 5 comprise a particular combination of elements, which is neither taught nor suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
